

The Finance Professional Show

FRIDAY 21ST NOVEMBER 2025
OLYMPIA LONDON
9:30AM - 4:30PM

FORGE. FINALISE. FLOURISH.

AN EXPO BY THOSE IN THE KNOW

The Finance Professional Show, a Medianett Publishing event, held its first property finance expo in 2014 at Olympia London. The very best brands and providers are consistent supporters and we're very proud to be a staple in the industry calendar, with thousands of delegates registering to attend each year.

However, it is the background and knowledge of the organising team that sets this trade show apart.

It is in the DNA of Medianett Publishing – creators of Bridging & Commercial, Development Finance Today and BTL Insider as well as the Lender Index – to know what brokers, lenders and property professionals want, and this knowledge is leveraged when bringing the FP Show to life.

This results in a more intuitive experience for visitors and providers, from exhibitor marketing support, to the venue, visitor features and layout, through to the conference and education programme.

The FP Show is an event where deals are done and return on investment is undisputed, plus companies have the opportunity to lean on us to ensure your exhibition experience is everything you want it to be.

We know the intermediary market – and we want to share that knowledge with you.

PUTTING YOUR BRAND FRONT AND CENTRE

The FP Show is promoted through several of the leading finance broker publications, both online and in print. In addition to Medianett Publishing's own brands, we work with an array of top distributors of news and content to ensure that the expo gets the attention it deserves.

This year, we are also partnering with mortgage networks, and have confirmed an exclusive and very

exciting collaboration with an organisation that is going to have all eyes on the event like never before - this is being announced early June.

As an FP Show exhibitor and/or sponsor, your business will be seen via these marketing endeavours, for months prior to the big day, by thousands of intermediaries, property investors, developers and more.

To supplement the web listing, general brand and social media activity that will be taking place between now and the Show, you may want to bolt on one or more of the below to boost your presence:
